

# Heaven Must Be Missing An Angel

Bro'Sis

Did I dream you could be true  
Cause when I'm with you I can't believe that you're with me

Girl I never thought I'd ever find you  
And be the one who's holding you

Baby you're amazing to me, maybe you're the reason I believe

Everytime I hear your voice, everytime I feel you're kiss  
It tells me heaven must be missing an angel  
Everytime I see your face, I'm thinking you're a vision  
Heaven must be missing an angel

You're perfection, Love's expression  
In every way you show me what it's all about

You're the answer to all my prayers oh baby,  
It's like you brought me higher love from up above

Everytime I hear your voice, everytime I feel you're kiss  
It tells me heaven must be missing an angel  
Everytime I see your face, I'm thinking you're a vision  
Heaven must be missing an angel

Baby you're amazing to me, maybe you're the reason I believe, I believe

Everytime I hear your voice, everytime I feel you're kiss  
It tells me heaven must be missing an angel  
Everytime I see your face, I'm thinking you're a vision  
Heaven must be missing an angel
