We'll Put A Spell On You

Bro'Sis

I remember not to long ago – when I wasn't
sure and did'nt know – dreaming bout the
moment I'd be on the radio
There were many nights I shed my tears – dealing
with my doubts and facing fears – now
I've got my chance right here and – i'm not
letting go

Cause they are watching you – everything
you do – giving all your body and mind –
when you finaly make it – you reach out
and take it – everything you feel is alright
alright.

We'll put a spell on you – we're giving you
something new – you gonna know know
before you go go – you're really gonna feel
it when we're through – we'll put a spell on
you – we're breaking every rule – we'll take
you high high you will know why – you're
really gonna feel it when we're through

Now they're treating me like I'm a star – it's
really cool when folgs know who you are
– and I'm gonna let them know that I am here
to stay

No one's gonna stop me not this time – cause
I've got it made up in my mind – that ain't
nobody standing in my way

Cause they are watching you – everything
you do – giving all your body and mind –
when you finaly make it – you reach out
and take it – everything you feel is alright
alright.

We'll put a spell on you – we're giving you
something new – you gonna know know
before you go go – you're really gonna feel
it when we're through – we'll put a spell on
you – we're breaking every rule – we'll take
you high high you will know why – you're
really gonna feel it when we're through

I use to think of dancing and taking
chances and dream about places
I'd be hanging out in it was a long way
but I'm here to say that Bro'Sis is here to stay
so you got the record on and it blows your
mind and bounce to the track cause you're
feeling fine yeah – we only did what we came
to to put a spell on you

We'll put a spell on you – we're giving you
something new – you gonna know know
before you go go – you're really gonna feel

it when we're through – we'll put a spell on
you – we're breaking every rule – we'll take
you high high you will know why – you're
really gonna feel it when we're through
