Come On Let's Go

Broadcast

You won't find it by your self You're gonna need some help And you won't fail with me around Come on let's go

I will tell you if you change And who's been saying things It's hard to tell who is real in here Come on let's go

You know who to turn to Now everything's changed Come on lets go Stop looking for answers In everyone's face Come on let's go

What's the point in wasting time On people that you'll never know Come on let's go

When you're looking for a friend But it's empty at the end When everybody's disappeared You won't be alone

If you want I'll compensate
If you over estimate
So there's nothing left to fear
You won't be alone
You know who to turn to
Now everything's changed
Come on let's go
Stop looking for answers
In everyone's face
Come on let's go

What's the point in wasting time On people that you'll never know Come on let's go
