

## Winter Now

Broadcast

Snow lies all around  
There's no sense of doubt  
You are the only one  
To keep me sane when all is wrong

Oh, my heart  
Waits in winter now

Deep in every dream  
Though you're far from me  
There in the deepest snow  
I only wanted you to know

Oh, my heart  
Waits in winter now

Falling quietly  
There reminding me  
Though it's just a dream  
You're closer than you've ever been

Oh, my heart  
Waits in winter now
