

## After the Disco

### Broken Bells

After your faith has let you down  
I know you'll want to run around  
And follow the crowd into the night  
But after the disco  
All of the shine just faded away  
Oh oh oh oh  
Do what you want  
Do what you will  
Don't tell me it's not our time

Cause I'm  
Waiting here much too long and  
Don't assume  
That I need your love  
The chill of night has got you dancing away  
And I'm  
Not the dreamer or the dream you're  
Out there looking for

How did I get in this winding maze of love?  
And there's something wrong and it's sending you  
Round and round 'til we go nowhere

I see the ashes on the ground  
I know the world is burning down  
And under the cold and empty moon  
But after the disco  
All of the shine just faded away  
Oh oh oh oh  
Do what you want  
Do what you will  
But you can't hide  
Oh oh oh oh  
Do what you want  
Do what you will  
Don't tell me it's not our time

Cause I'm  
Waiting here much too long and  
Don't assume  
That I need your love  
The chill of night has got you dancing away  
And I'm  
Not the dreamer or the dream you're  
Out there looking for

How did I get in this winding maze of love?  
And there's something wrong and it's sending you  
Round and round 'til we go nowhere
