

Never Say Die

Broken Bones

I don't give a damn if you live or die
I don't even care if you crash or fly
Take my place in the human race
And let the whole world go bang in your face
Never say die! Gonna be the best
Never say die! Don't care about the rest
Never say die! We're never gonna stop
Never say die! Until you drop
You know you set my World on fire
You fill me with a burning desire
There ain't no use for me to explain
What you do to me is inhumane
