

## Never Say Die

## Broken Bones

I don't give a damn if you live or die  
I don't even care if you crash or fly  
Take my place in the human race  
And let the whole world go bang in your face  
Never say die! Gonna be the best  
Never say die! Don't care about the rest  
Never say die! We're never gonna stop  
Never say die! Until you drop  
You know you set my World on fire  
You fill me with a burning desire  
There ain't no use for me to explain  
What you do to me is inhumane
