All to All

Broken Social Scene

Call of forgiveness I'm like the beat of the hurt I'm not the only one You tried to save when you fell out

Call of forgiveness I'm like the clean in the dirt I'm not the only one You tried to save when you fell out

Try, wait You made your life on everything Hard, made You made your life on everything

Try, wait You made your life on everything Long, fade You made your life on everything

Call of forgiveness I'm like the heal of the hurt I'm like the only one You tried to save when you fell out

Call of forgiveness I'm like the queen of the dirt I'm like the only one You tried to save when you fell out

It's like the common law Was wall to wall and almost faded I've seen the gone to small The lost of law, the almost made it It seems like mine to shine You'll always find the lonely ray

It's like the wall to fall, the fall of all The laws are graded I've seen the lies that call The pictures tall, the lines are made in It's like the fight to crawl My darling, all you've lived your age

I know it's all to all, all to all ultimatum It's like the all to all, all to all ultimatum It's like the all to all, the all to all the ultimatum

I know it's all to all, all to all ultimatum Just like like the all to all, all to all ultimatum It's like the all to all, the all to all the ultimatum

You made your life on everything You made your life on everything
