

Gonna Get Better

Broken Social Scene

Did you know what it used to be
We still got to go there
Did you know what it used to be
You are all whispers, all whispers
Just a whisper
If you can [?]
Did you know what it used to be
We still got it

Things will get better
'Cause they can't get worse, oh
Things will get better
'Cause they can't get worse
No they can't get worse
Things are gonna get better

And don't let them speak for you
Don't let them speak for you
I can hear you
Tell me what you got to say
I can feel you

Things will get better
'Cause they can't get worse, oh
Things will get better
'Cause they can't get worse
No they can't get worse
Things are gonna get better

Well I can't be the most of you [?]
The temperature once rose
You don't know what you like
[?]
You don't know what you want
'Cause who knows what they wanted
[?]
Who knows what they want

Things will get better
'Cause they can't get worse, oh
Things will get better
'Cause they can't get worse
No they can't get worse
Things are gonna get better

Your head in my heart
Your head in my heart
Head in my heart
Head in my heart
Head, heart
Head, heart
