

# Halfway Home

## Broken Social Scene

You said we're halfway home  
You said survive  
You said we're halfway home  
You said survive

Come right  
Into the sunlight  
Cause I see the cold eyes  
I feel they still grow  
Like it was so what  
As if it's so much  
All through my fallen face, end to end

You said we're halfway home  
You said survive

This is my horror time  
This is my fallen face

Cause if you never run, never run  
How they gonna catch you alive?  
Yeah if you never run, never run  
How they gonna catch you alive?

You said we're halfway home  
You said survive  
You said we're halfway home  
You said survive

Dreams change and I know that I'm gonna die  
But I don't need what I know now  
You were beautiful my love  
I see what I wanna hear

Come right  
Into the sunlight  
Cause I see the cold eyes  
And I feel they still grow

And you'll forget  
Call out for a change  
But not believe in anything  
You will forget  
Call out for a change  
And not believe in anything, anything  
You will forget  
Call out for a change  
Not believe in anything, anything  
You will forget  
Call out for a change  
And not believe in anything

Cause if you never run, never run  
How they gonna catch you alive?  
And If you never run, never run  
How they gonna catch you alive?  
If you never run, never run

How they gonna catch you alive?  
And If you never run, never run  
How they gonna catch you alive?
