Has it brought you closer to this? Yeah, has it brought you closer to this?

And is it coming alive? Try to believe it Was the question a point? I don't want your love

Has it brought you closer to this? Yeah, has it brought you closer to this?

We've got eyes that leave us in places we don't see We've got eyes that leave us in places we don't see

Let me take you on We'll get high just a little It kind of takes the joy away We don't come at all
