

Romance to the Grave

Broken Social Scene

When I'm right I'm always wrong
Beneath the wise
Rolling through the way
Further my luck tries to be the same

When I'm wrong I'm almost right
To breathe the miles
Coming through the haze
Still like i thought

I don't speak the tongues
Of finds within a life
Dying for a save
Stop on gets on my

I got buried with my
Try from the start
Romance to the grave
Star

And in your house you built
To fail through all the eyes
Wanting what to say
Followed by, keep on

This might be the last of lied
Inside your lock
Only you can break
For all these times never mind

Cause when your right you're never wrong
To reach the high
Low for you to wait
Fall on days

I don't lived for all that died
I just want to feel it again
