

She's starin' and the mood is right  
Music's blarin' and the ladies are lookin' nice  
I'm lookin' good and you know it too  
So tell me why should I fuck with you

She's always callin', blowin' up my instant messenger  
It's getting hot in here, I'm turning off the temperature  
This club is crawling with exotic stripper leopard skirts  
They got me feeling like I'm never having sex with her  
(2x)

I will fuck you. I don't wanna fuck you  
Where I took you (you sound so innocent)  
I will suck you. You got me feeling so alive  
I will suck you... in the sky!

I hope I showed ya, you no got to go slow motion  
Hoping that she'd know there's disease  
Even though she's bleedin', I'm leavin'  
Heavy breathin'; there'll be no conceivin'  
That's a rap, after the big nasty  
Grab me and do the happy  
Gone. Stop. This goes no further  
You couldn't pay me to touch that traunch burger  
What the fuck is a traunch burger?!

(But she looks so sexy the way she moves)
