I'm Sorry

Brokencyde

```
I've been wrighting this letter
for a couple of months now
and right now
what I wanna do
Is I wanna express this letter
to you
It goes like this

chorus:

Your eyes
they flow
from all the pain i caused
i lost my cause
i only broke your heart
alone i cry
i tried so hard to break you
i love you
I hate you
why wont you let me go?

(I feel the raindrops fall
these tears wont take you away
im sorry)

(I hear the thunder scream
its screaming out for me
Im sorry)

the rain it drips the rain drops dripping) (x8

[Chorus Repeat]

(the rain will follow me, i feel like i cant breath, im sorry)
(I fell asleep again, when will this tempest end, im sorry)

the rain it drips the rain drops down) (x8

[chorus repeat]

(I finally realised
that i fucked up your life
im sorry)

the rain it drips the rain drops dripping) (x8

[chorus repeat]

I'd die tonight
If only you were here
I'd tell you im sorry
I'd fucking disapear

...
you look so pretty now
without me
alone
```

the tears come crashing down
