

Kissin' in the hallway  
Turn off all the lights  
Fragments of a lost love  
Dissolve into the night

And I'll never get this feeling out of my head  
And I'll never wanna be the one you forget

Blood hits the pavement from your eyes  
Under the streetlights, but I've got you  
Your restless limbs are goin' wild  
They're comin' for mine cause they've got you

Climb into the back seat  
Sitting on each other's knees  
Wannabe on repeat  
Acting like real ladies

And I'll never get this feeling out of my head  
And I'll never wanna be the one you forget

Blood hits the pavement from your eyes  
Under the streetlights, but I've got you  
Your restless limbs are goin' wild  
They're comin' for mine cause they've got you

I, I, I, I got you  
I, I, I, I got you

And I'll never get this feeling out of my head  
And I'll never wanna be the one you forget

Blood hits the pavement from your eyes  
Under the streetlights, but I've got you  
Your restless limbs are goin' wild  
They're comin' for mine cause they've got you

(I, I, I, I)  
Cause they've got you  
(I, I, I, I)  
I've got you
