

Sleep Baby Sleep

BROODS

Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I lie next to you
The beauty of this mess is that it brings me close to you

I could be the one to give you all I am
With a gentle touch and a foolish love
You could be the one to carry all my troubles away
With the words you say, all I need to hear so

Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I lie next to you
The beauty of this mess is that it brings me close to you

Ignorance is torture but your love is right
Tip to tip a gentleman of the night
Feed my fascination a way our skin likes silk
And I'm still filled with wonder you could fool me easily so

Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I lie next to you
The beauty of this mess is that it brings me close to you

So lay here and rest up next to me
Cause we'll be alright, we'll be alright
But when we leave I know it's hard
Cause it's only no but we'll be alright, we'll be alright, right

Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I lie next to you
The beauty of this mess is that it brings me close to you
