

A Million Miles From Nowhere

Brook Benton

A million miles from nowhere
A million miles from you
A million miles from nowhere
Alone, broken hearted and blue

Memories of you
And the love we once knew
How they linger in my heart
Though we're a million miles apart

A million miles from happiness
A million miles of lonlieness
Through a world of wilderness
Oh, how can I go on like this

A million miles from nowhere
A million miles from you
A million miles from nowhere
Alone, broken hearted and blue
Alone, broken hearted and blue
A million miles from you
