

I Want You

Brooke Hogan

I want you, I need you, I love you, I feel you, my baby

I think about you, I get so high

This feeling I'm feeling, I want you tonight

Goin crazy I must be insane

Your all I think about night and day

Doesnt matter where you are, Cause I can reach you even from af
ar

I want you, I need you, I love you, I feel you, my baby

Way down deep in my heart

I want you, I need you, I love you, my baby

Am I just dreaming, or am I living a perfect life

It's not that I'm leaning, it's not just a part of a clever dis
guise

Goin crazy out of my mind, you give me lovin' that is hard to f
ind

Doesn't matter where you are, cause I can reach you even from a
far

I want you, I need you, I love you, I feel you, my baby

Way down deep in my heart

I want you, I need you, I love you, my baby

Listen to the beat of my heart

With every living moment I breathe (way down deep in my heart)

I wanna tell you that I'm thankful to the face who sent you to
me

I want you, I need you, I love you, I feel you, my baby

I want you, I need you, I love you, I feel you, my baby

Way down deep in my heart

I want you, I need you, I love you, my baby

Listen to the beat of my heart

I want you, I need you, I love you, I feel you, my baby

Way down deep in my heart

I want you, I need you, I love you, my baby

Listen to the beat of my heart

I want you, I need you, I love you, I feel you, my baby
