

Change

Brooke White

All alone inside your pain
No one understand the way you're feeling
Trap beneath the clouds and rain
The rain at the left for you to believe in

So when it's hard to see
The forest through the trees
Sometimes, and I will pray
And yes I'll pray
That someday
It's gonna change
It's gonna change

I wish I can take it all away
And give you the freedom for just a day
To feel the love you've been longing for
So strong you couldn't feel sad anymore

So when it's hard to see
The forest through the trees
Sometimes, and I will pray
And yes I'll pray
That someday
It's gonna change
It's gonna change

So don't give up and don't give in
When there's a choice to synch with swift
Cause in the end
Our hope is stand
Knowing you become a better man
A better man

So when it's hard to see
The forest through the trees
Just know
That I will pray
And yes I'll pray
That someday
It's gonna change
It's gonna change
It's gonna change
It's gonaa change
It's gonna change
