

In Love

Brooke White

It's like candy land
When you hold my hand
Anywhere you stand
I wanna be next to you

Give me one more taste
Of your sweet embrace
Lipstick on your face
After we kiss goodnight

And you're mine, all mine
And it's fine with me
Wanna take your time
So I can make you see
With me, how happy we'll be

So fly away
Million miles away
And there we'll stay
In love
In love

Just to hear the sound
Of your voice around
Paradise, I found
When you speak my name

Wanna stay like this
Wrapped up in your bliss
Never gonna miss a single day
Without the chance to say I love you

And as time goes on

And we both grow old
You'll always be my sun
When the world gets cold
You'll always know, you're my only one

So here I come for you
Nothing no one can do
To keep me away from you

This love has no end
Never gonna save me
'til eternity is through
I'll keep on loving you
Forever and ever

So let's head away
We can leave today
Let's go find a space
Our own little place
Where we can stay
Where we can stay
In love
In love

So let's fly away
Million miles away
And there we'll stay
In love
In love
In love
