

Cheating on the Blues

Brooks & Dunn

He left you - she left me
Drowning in this misery
We stopped living
When they said goodbye

We've been faithful to these blues
But I've had enough - now how about you
Don't you think we've earned the right
To go cheating on the blues tonight

Cheating on the blues tonight
Let's go out and do it right
Throw it into overdrive
And get on down the road

Shake it till the break of dawn
Party till the heartache's gone
We'll have us a real good time
Cheating on the blues tonight

Pick you up at half past eight
You can bet I won't be late
With any luck we'll make the dance by nine
We won't talk about the past

Let old memories die at last
Have some fun - keep it light
Cheating on the blues tonight

Cheating on the blues tonight
Let's go out and do it right
Throw it into overdrive
And get on down the road

Shake it till the break of dawn
Party till the heartache's gone
We'll have us a real good time
Cheating on the blues tonight
