If That's the Way You Want It

Brooks & Dunn

I've loved you since I met you I guess I always will There's something 'bout the way you smile That makes my heart stand still You say you love your freedom I'd never tie you down If you ever need these loving arms I'll be hangin' 'round

If that's the way you want it That's alright with me If that's the way you want it That's how it's gonna be I'll be your Johnnie on the spot Or Mr. Used To Be If that's the way you want it That's alright with me

I'm laid back, easy-going
I'm not the jealous kind
I won't get in your business
If you won't mess with mine
Just say the word forever
I'll gladly sing that line
I'll lay the world down at your feet
And fly you to the moon

If that's the way you want it That's alright with me If that's the way you want it That's how it's gonna be I'll be your Johnnie on the spot Or Mr. Used To Be If that's the way you want it That's alright with me
