## More Than a Margarita

## **Brooks & Dunn**

I started my day with Corona Hopin' it'd help me get over The night that you left But it didn't help So I moved on to tequila Built a pyramid up to the ceiling Ten glasses high But I can still hear you sayin' goodbye

It's gonna take more than a margarita More than a shooter To blow your memory away I still need ya I'm hurtin' without you Even when I'm feelin' no pain

Well, tonight I'm the life of the party Jokin' about my broken heart But it's easy to see The joke's on me That waitress just asked how I want it With or without the salt on it I shook my head Either way ain't gonna make me forget

It's gonna take more than a margarita More than a shooter To blow your memory away I still need ya I'm hurtin' without you Even when I'm feelin' no pain

It's gonna take more than a margarita More than a shooter To blow your memory away I still need ya I'm hurtin' without you Even when I'm feelin' no pain

It's gonna take more than a margarita More than a shooter To blow your memory away I still need ya I'm hurtin' without you Even when I'm feelin' no pain

It's gonna take more than a margarita More than a shooter To blow your memory away I still need ya I'm hurtin' without you Even when I'm feelin' no pain
