

Still in Love with You

Brooks & Dunn

My taxicab's waiting
Wish I could hold you one last time
After all we had together
There's gotta be a better way
Of telling you goodbye

If I had a horse
I'd ride off in the sunset
If I had wings, I'd fly off
In the sky so blue
If I had the time, I'd spend my
Whole life dreaming
But I'd wake up, still in love with you

Be in Baton Rouge by morning
Hope your missing me by then
I'd like to be the kind of memory
That makes you want to take me back
In your arms again

If I had a horse
I'd ride off in the sunset
If I had wings, I'd fly off
In the sky so blue
If I had the time, I'd spend my
Whole life dreaming
But I'd wake up, still in love with you

Some night when you get lonely
Will you still remember me

If I had a horse
I'd ride off in the sunset
If I had wings, I'd fly off
In the sky so blue
If I had the time, I'd spend my
Whole life dreaming
But I'd wake up, still in love with you
