

# Unloved

Brooks & Dunn

I know you know  
Just how it goes when it goes  
And how it feels  
To be lost and left alone on your own  
And what it's like  
To give all you got and have to stand and watch it  
As it walks away  
So everyone deserves a chance to live and learn  
From mistakes  
That we make and hearts that break and bridges burn  
Starting now  
From this moment on nothing's gonna go wrong  
Love is here to stay

You'll never be without  
You'll always have enough  
When you're in my arms  
You'll never go unloved  
As long as there is time  
And for all of it to come  
No matter where you go I want you to know  
You'll never be unloved

So in this life we lead  
Some things are guaranteed  
You can count on the fact that hearts won't act responsibly  
Now and then  
Comes a love that's heaven sent and meant to be  
So baby look at me

You'll never be without  
You'll always have enough  
When you're in my arms  
You'll never go unloved  
As long as there is time  
And for all of it to come  
No matter where you go I want you to know  
You'll never be unloved

You'll never be without  
You'll always have enough  
When you're in my arms  
You'll never go unloved  
As long as there is time  
And for all of it to come  
No matter where you go I want you to know  
You'll never be unloved
