

4th King

Brother Ali

Eh, eh, eh eh
A shadow box in with a trick of life
A day that disappears into the night
Wings of gold that shattered into dust
So understand what's in your hands is not enough
Ahh, ahh

Chorus:

Why don't you stop waiting for forever
Forever might never come
Why don't you stop waiting for forever
Living like it's not begun
Cause the now, the now is the only time that matters
Come on stop waiting for forever
Forever might never come
Ey ey ey ey ey ey ey
Forever might never come

The moment we decide to let it go
The future is the one we not control
Illusions of what love's suppose to be
Can pull you in and feed the insecurity
Ohhh, ohhh

Why don't you stop waiting for forever
Forever might never come
Why don't you stop waiting for forever
Living like it's not begun
Cause the now, the now is the only time that matters
Come on stop waiting for forever
Forever might never come
Ey ey ey ey ey ey ey
Forever might never come

You want it all, everything you want it for free
And if you wanna be everything you said you'd be

Why don't you stop waiting for forever
Forever might never come
Why don't you stop waiting for forever
Living like it's not begun
Cause the now, the now is the only time that matters
Come on stop waiting for forever
Forever might never come
Ey ey ey ey ey ey ey
Forever might never come
