## **Won More Hit**

**Brother Ali** 

Please oh please oh please Give me just one more hit Please oh please oh please Give me just one more hit It's an exorcism bitches A horror story Okay we stole you from your mother and we beat you red and bloody And we made you build a country and we never gave you nothing But a savior with our ugly face painted on the front And we let you sing about it entertain us every Sunday Sing when you're worshipping sing when you're working And see if you can sing your self out of the hurt you're in Please oh please give me just one more hit Make it extra special and you might not get the whip People want to hear your instruments and voices It's just so annoying have to always come and join you It reminds us of the horrible conditions that we're causing Really rather avoid it try hard to ignore it Give me one performance and an engineer record it Then we can all enjoy it and we never have to know you Please oh please give me just one more hit I sell it 'round the planet and I'm keeping every cent Treat you like a hero and we all come to see you In a big fancy theatre dressed in a tuxedo Going to have to seat you in the kitchen when you feed you A place this regal doesn't serve your kind of people Love to get an earful and praise and even cheer you But we're still too fearful to think of eating near you Please oh please give me just one more hit You sing so very nice but I don't want you 'round my kids
