

Make Your Play

Brother Cane

I just want some reaction, just to get my satisfaction
Things are tough all over, I know what you mean
I guess we'll have to see

[Chorus]

You got to make your play, listen what I say
You got to make your play, don't wait another day

Picture it baby, what'll it be, another sunset fades over me
I'm tired of waitin', I'm tired of wastin' time
I need to see some light, oh yeah

[Chorus]

I just need some reaction, just to get my satisfaction, yeah
Things are tough all over, I know what you mean
And things will never change

[Chorus]

Don't wait another day, you've got to make your play
