## Brother Cane

I used to know better  
Now I don't know what's worse  
Having it all maybe  
Or having nothing for sure

Shoot for the moon  
Getting lost in the clouds  
I'd like to land, but I  
Can't see where I'm coming down  
My baby  
Do you understand what I'm going through  
Oh my baby

Searchin' my soul  
And the answer's the same  
I'm in control, but I  
Don't know the rules of the game

One step ahead  
We take two steps back  
I get the picture, but it's  
Always fading to black  
My Baby  
Do you understand what I'm going through  
Oh my baby  
Oh, oh, oh

Well searchin' my soul  
And the answer's the same  
I'm in control, but I  
Don't know the rules of the game

One step ahead  
I take two steps back  
I get the picture, but it's  
Always fading to black  
Always fading to black

Woman keep me warm  
Woman keep me warm  
Caught in this chain  
And it's all the same  
Woman keep me warm

Woman keep me warm  
Woman keep me warm  
Woman keep me warm  
Woman keep me warm  
We're caught in this chain  
And it's all the same  
Woman  
Keep me warm
