

Kiss Me Kiss Your Baby

Brotherhood of Man

Come on and kiss me, kiss your baby
Come on and tell me that it's me you love
Come on and kiss me, kiss your baby
Am I the one that you have been thinking of
Now at last I am home
And we're all alone
Come on and kiss me, kiss your baby.
And make it all right.

Come on and kiss me, kiss your baby
You know that I've been missing you
Come on and kiss me, kiss your baby
It's so nice to be kissed by you
There's so much to say in so many ways
Gonna hug and kiss you baby
And make it good tonight.

It's been a long long time since you've been mine.
Now I want to hold you, my arms will enfold you
Just let me hear you say
Come on and kiss me, kiss me, kiss me
Kiss your, kiss me, kiss your baby.
Come on and kiss me, kiss your baby,
Come on and kiss me, kiss your baby,
Come on and kiss me, kiss your baby ...
