

At The First Fall Of Snow

Brothers Osborne

It's not your kiss so much I miss
It's not your touch I miss so much
That makes me cry the whole night long
It's just the idea that you're gone.

It's just the idea a bitter idea
That it lasted long enough and now you're gone
It's not the first that I'm alone
It's just the idea that you're gone.

--- Instrumental ---

It's just the idea a bitter idea
That it's really over and you're really gone
It's not the loneliness that hurts
It's just the idea that you're gone.

It's just the idea that you're gone...
