

## Blame Me

Brothers Osborne

Blame me if you want to  
I'll just keep on, keep on, keep on loving you  
Lie to me, find someone new  
But I'll just keep on, keep on, keep on loving you.

I met you not so long ago and oh how I felt  
Every time you looked me your eyes would cast the spell  
But that spell became a broken dream for your love was never true  
And no matter what they say I'll just keep on loving you.

--- Instrumental ---

Blame me if you want to  
I'll just keep on, keep on, keep on loving you  
Lie to me, find someone new  
But I'll just keep on, keep on, keep on loving you.
