

Give This Message To Your Heart

Brothers Osborne

Give this message to your heart
Read my letter one more time
Don't let me tear our world apart
Please don't read between the lines
Give this message to your heart.

I don't know what made me lie to you
Most of all I just don't know why I cheated on you
Give me the chance that I'd give you
Give this message to your heart.

--- Instrumental ---

It's hard to ask you to forgive
For you have more than done your part
But if you don't then I can't live
Give this message to your heart.

I don't know what made me lie to you
Most of all I just don't know why I cheated on you
Give me the chance that I'd give you
Give this message to your heart...
