Give This Message To Your Heart

Brothers Osborne

Give this message to your heart Read my letter one more time Don't let me tear our world apart Please don't read between the lines Give this message to your heart.

I don't know what made me lie to you Most of all I just don't know why I cheated on you Give me the chance that I'd give you Give this message to your heart.

--- Instrumental ---

It's hard to ask you to forgive For you have more than done your part But if you don't then I can't live Give this message to your heart.

I don't know what made me lie to you Most of all I just don't know why I cheated on you Give me the chance that I'd give you Give this message to your heart...
