

Love Song

Bruce Cockburn

In the place my wonder comes from
There I find you
Your face shines in my sky
In your heart where the world comes from
There you will find me
Your eyes dance in my mind
Come with me
We will sail on the wind
We will sway among the yellow grass
When you be beside me
I am real
Though my eyes be closed forever
Still I would find you
You shine across my time
Come with me
We will sail on the wind
We will sway among the yellow grass
When you be beside me
I am real
In the place my wonder comes from
There I find you
