

Slow Down Fast

Bruce Cockburn

L ron N ron every kind of ron con
Neocon old con got to put the brakes on
Slow down fast

Lights out veins plugged zap it with another drug
Genejacker pharma thug say hello to superbug
Slow down fast

Shills and hawkers and rockers with walkers
Bombs in the lockers and brain dead mockers
Slow down fast

One-eyed sun leering through the haze
Hordes of loveless marching while the little drummer plays
Nail in the coffin rats in the maze
Dancing arm in arm towards the looming end of days
Got to slow down

Oil wars water wars tv propaganda whores
Fire alarm met with snores no one gets what' gone before
Slow down fast

Flagwave hammer slave gonna be a close shave
Stay brave jump the grave got to save what we can save
Slow down fast

Got to slow down fast
Slow down fast
CSIS won't you tell me what you've got on me?
