

# Meltdown

Bruce Dickinson

Hey, you wait - cringing in the dark  
You create what you always fear  
A puppet of hatred, dishing out poison  
You use me for bait (bait) - your begging bowl of lies  
Chain letters of sniveling compromise

I can smell the difference  
Your truth and your fiction  
You and your twisted convictions

Were you my friend when I belonged?  
Were you my friend when I was strong?  
Were you my friend when I was weak?  
Were you my friend when I was crawling, calling...  
Out of my head?

Cold, like your blood  
The snake is always cool (cool)  
When things get tough  
You slither on the ground  
You cover up your tracks when I'm around  
(laughs)  
(yeah)  
It's over now, my friend  
Your dog has had it's day  
It's payback time for what you had to say

You're stuck with the life you made  
Stuck with the plans you made  
Stuck with everything you are

Were you my friend when I belonged?  
Were you my friend when I was strong?  
Were you my friend when I was weak?  
Were you my friend when I was crawling, calling...  
Out of my head?

Everything's gonna happen now  
Everything's gonna happen now  
Everything's gonna happen now  
Everything's gonna happen right now

Were you my friend when I belonged?  
Were you my friend when I was strong?  
Were you my friend when I was weak?  
Were you my friend when I was crawling, calling...  
Out of my head?

Crawling (crawling), calling (calling)  
Out of my head (head)  
Crawling (crawling), calling (calling)  
Out of my head
