

Riding with the Angels

Bruce Dickinson

Katie was a kid, I guess she hid her thoughts from
everyone
Went to school at eight, she was never late
Didn't know the meaning of fun

Every night Katie prayed to God above
But her daddy gave her everything but love

She woke up one day, said: "I'm on my way"
Her mummy read the letter, It did say:
"I'm on my way, I'm on my way"

Riding with the angels (4x)
She's having fun fun fun
She's having fun fun fun

Rode around, every boy in town tried to win her back
It was no go, cause she rode with Joe
he was the leader of the pack
People ran for cover when they rolled to town
The night was black, rain on the ground

Engines scream, running too fast
They knew the ride would be their last
They're on their way, They're on their way

Riding with the angels (4x)
She's having fun fun fun
She's having fun fun fun

Look out

Riding with the angels (3x)

Riding with the angels (4x)
She's having fun fun fun
She's having fun fun fun

Riding with the angels, Fun fun fun fun fun fun
