

Try Anything Once

Bruce Hornsby

Somebody cracks you upside the head
Makes you forget everything you read
Bet you don't have to crack him back
Walk away let it go and you're in the stack
What the hell
I'll try anything once
Got to keep an open mind this time
What the hell
I'll try anything once
Got to keep an open mind in these times
Spewing venomous epithets
Somebody don't like your epaulets
Take offense let him get in your way
Or let it go and laugh all day
What the hell
I'll try anything once
Got to keep an open mind this time
What the hell
I'll try anything once
Got to keep an open mind in these crazy times
This time I've got my mind
This time I've got my mind right
This time I'll open my mind right
