

When I Loved You

Bruce Robison

[Chorus]

When I loved you, you didn't want me
You turned me away from the door of your heart
When I loved you
You loved me too but you didn't know it darling
'Till another won my heart

Well, I got the message you sent by a friend
Telling me that you want to be with me once more
You heard of my wedding and you can't believe it
But my heart is safe now it don't ache no more

[Chorus]

You say that you need me more than you need life
You've asked me to cheat her and meet you tonight
But how could you want me if I were untrue
When you know if I'd cheat her that I'd cheat you too

[Chorus]

When I loved you
You loved me too but you didn't know it darling
'Till another won my heart
