

One Way Street

Bruce Springsteen

Well if the sun should fall from the sky tomorrow
If the rain brings a tear to your eye, I would share your sorrow
if you must go then take your leave, our love was strong,
our love was sweet
But we were walkin' on the wild side, runnin' down a one way street
In the night I see only the fire in your eyes,
the morning light brings the shadow of your lies
so the change has come today and for our wrongs we must pay
we were walkin' on the wild side, runnin' down a one way street

Oh my darlin I must I must confess
this can't be love, no I am just a man possessed
And we the tied has turned today, we can turn and walk away
Cause we were walkin' on the wild side, runnin' down a one way street

Oh yes, we are
Girl we're walkin' on the wild side, runnin' down a one way street
