

When You Need Me

Bruce Springsteen

1. When you need me
Call my name

Cause without you
My life just isnt the same
If you want me come sunny
sky or rain
When you need me
Call my name

2. If you miss me
I'll be there

To brush the sunlight
From your hair
I'll be there to guide you
When trouble walks beside you
So if you need me
I'll be there

- R: And when this dirty world
Has been cold to you
I've got two strong arms waitn' to hold you
So when thos mean days come along
We'll stand together and we'll take em' on
So when you need me
Call my name

3. When you need me
Call my name

Cause without you
My life just isnt the same
Cause when this world kicked me around
Baby you picked me up off the ground
So when you need me
I'll be there
