

Money Make Her Smile

Bruno Mars

Are you getting back, coming to the stage is a girl who's new i
n town

She goes by the name where your stacks at
This pretty little thing I swear won't let you down
Watch it drop it like... hey

It's not complicated, so this won't take a while
You see music make her dancin, and money money money make her s
mile
Money money money make her smile
Money money money make her smile

She's a super freak
You wouldn't know it if you saw her outside these velvet walls
No she don't go where preachers preach
She only go to the church when dollars foam
Watch it drop it like... hey

It's not complicated, so this won't take a while
You see music make her dancin, and money money money make her s
mile
Money money money make her smile
Money money money make her smile

Watch her...

It's not complicated, so this won't take a while
You see music make her dancin, and money money money make her s
mile
Money money money make her smile
Money money money make her smile
