Who Are You

Bruno Mars

- You use to tell that you loved me Yeah that's what you would say You use to buy flowers even out on valentines day You would surprise me with a dinner even though you just ate But what happened? baby, what happened?
- R: We've been going through some changes Like we in different places And now you think that you can just do what you do Without any consequences It's not what you say but what you don't say It's not what you do but what you don't do It's not where we go but where we don't go It's like I don't even know you anymore You're just a stranger, a stranger And I don't recognize you no more You're just a stranger, a stranger What happened to the man that you were before? Woah oh, woah oh, woah oh, woah oh.
- 2. You use to look me in my eye but now you just look away If I pull some extra time you say that you just can't stay Oh, if you leave me at home alone for just one more night I promise, it's gonna be the last time

R:

What 'chu want me to do (do) I'm not gun' chase after you (you) Tell me how can I get (get) Back the man I first met (met)

It's not what you say but what you don't say It's not what you do but what you don't do It's not where we go but where we don't go It's like I don't even know you anymore You're just a stranger (don't know you no more) A stranger and I don't recognize you no more You're just a stranger, a stranger What happened to the man that you were before?
