

## Brother to brother

Bruno Pelletier

Brother to brother  
Now we must join our hearts and hands  
Yeah, if we love one another  
We hold the key to the promised land

Think of all that we've been through  
The shucks and jives and royal blues  
Let us pray our time will come  
When this world will live as one

Brother to brother  
Don't let the devil get you down  
Oh 'cause it's bread and it's butter  
That makes this whole damn world  
Go round and round

Do you know where we went wrong  
Tell me why the lines are drawn?  
And let us break our bound'ries down  
And live our lives on common ground

Oh mothers and fathers  
Where will tomorrow's children been?  
Oh brother, my brother  
Let us live our lives in peace

Brother to brother  
Brother to Brother
