

Brother to brother

Bruno Pelletier

Brother to brother
Now we must join our hearts and hands
Yeah, if we love one another
We hold the key to the promised land

Think of all that we've been through
The shucks and jives and royal blues
Let us pray our time will come
When this world will live as one

Brother to brother
Don't let the devil get you down
Oh 'cause it's bread and it's butter
That makes this whole damn world
Go round and round

Do you know where we went wrong
Tell me why the lines are drawn?
And let us break our bound'ries down
And live our lives on common ground

Oh mothers and fathers
Where will tomorrow's children be?
Oh brother, my brother
Let us live our lives in peace

Brother to brother
Brother to Brother
