

Cometh The Hour

Brutal Attack

Walking down that long and dusty road
Walking alone carrying a heavy load
I'll walk forever and I'll walk unbowed
I'll free this nation to whom a pledge I rowed

Cometh the hour - cometh the man
Who will make a final stand
Cometh the hour - cometh the man
Who holds the power in this hands

You know sometimes people think I'm crazy
9 times outta 10, I got a gun in my hand
Take a good look around you, then just maybe
You might finally understand

I made a promise so many years ago
That I would fight to let my people know
They were born to lead and not born to hide
With the guardians of natural law on their side
