

## Average People (Fiend)

Brutal Truth

Humanity rising  
life depriving  
mankind decline  
black humor falls in place  
evolve in catalogue  
prey of progress  
self-evolution contribution  
retributin at hand  
pitch your fall for the big show  
grand illusion of fruition  
through suspicions of our end

Next in line  
step to me and bass the buck  
it's only human actions  
force me to lash out and crush

Every day i see  
the cattle march by  
clueless victims of society's  
numbing effects  
told to listen, forced to turn off,  
obey... non-thinking

Conform to norm  
or be tagged as wrong  
wake-up sleeping nation  
or be gone, gone
