

## Lifer

## Brutal Truth

I know -- the policies of war  
I know -- the ruthless sacrifice  
I know -- that broken toys explode  
You know -- I'll never compromise

Born into -- smashing divisions  
Religious conviction in lime  
Moral repression depression  
Our cattle are starting to drive

Your reason for breaking the heart and your mind  
Usurp the beliefs of last few who cry

Fucking tourist start your drive to mundane existence  
This lifer could give a fuck  
If you had your own opinion
