Don't think our world, our world, won't crumble.
Revolution distrust... environmental.
Not a question of if or why.
Floods and droughts will kill the light.
People kill for simple needs.
Post apocalyptic dreams.
Scavenge Earth for your right to live - right to live.
Scavenge Erath for your right to live.
People kill for simple needs... zombies feed on meat.

Don't think our world, our world, won't crumble.

Not a question of if or why.

Floods and droughts will kill the light.

People kill for simple needs.

Post apocalyptic dreams.

Scavenge Earth for your right to live.

Scavenge Erath for your right to live.

Welcome to our post apocalyptic dream.
